

# EXTENSION FOR Ø125 ADAPTER

---

## EXTENSION FOR Ø125 ADAPTER

---

---

## FEATURES

---

Extension, for Ø125 adapters VMAVCPRO(75/90)AP models or for VMAVC(75/90)AP models, length 346 mm and maximum useful length 333 mm. It is cut on the spot with raised marks at 1 cm pitch to facilitate precision cutting.

It has to be inserted well into the adapter's stop and remains, however, removable by hand. An adhesive bandage is provided to ensure tightness and for anti-unraveling safety between the adapter and tube-extension, which is recommended to be used in any case

### Materials of construction:

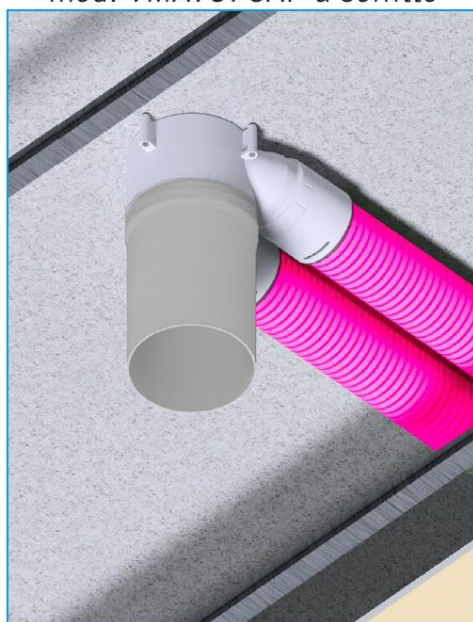

PP (polypropylene), with antibacterial properties.

---

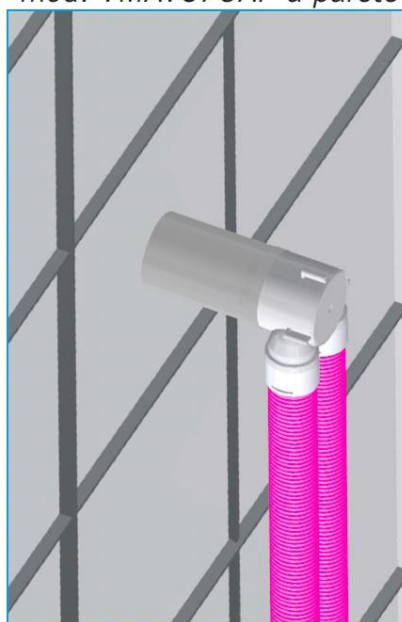

## DETAILS

---

*Prolunga su un adattatore mod. VMAVC75AP a soffitto*

*Prolunga su un adattatore mod. VMAVC75AP a parete*

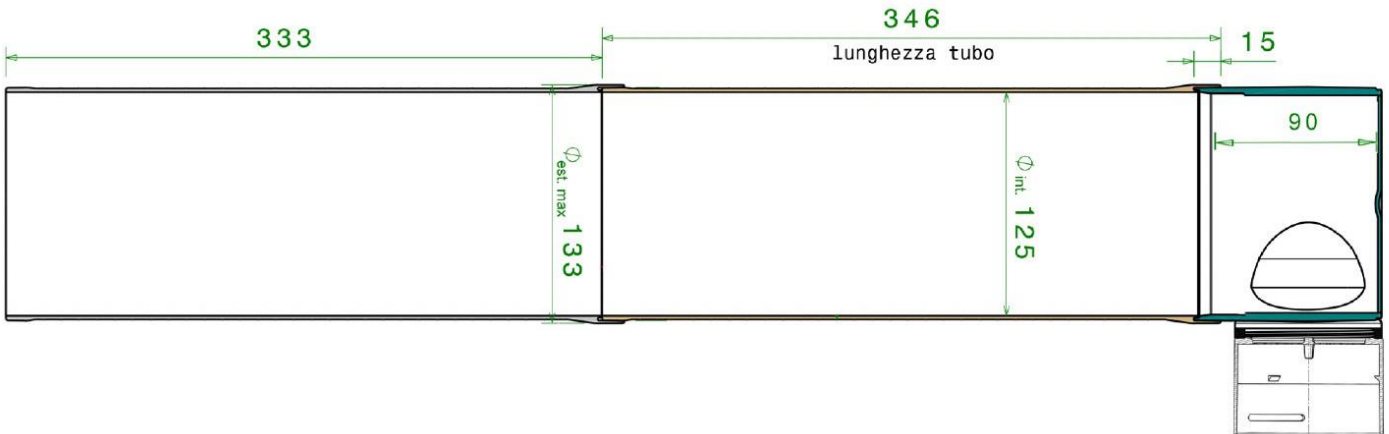

---
